Everyone Can Be A Goalkeeper! (Online or at home learning)

Objective:

Students will understand that they already have the potential to be a Goalkeeper.

Step 1:

- Ask students to watch [WLL Animation Part 1](#). Remind students to mute their microphones as they watch this independently. Ask them to think about and listen to answers to the following: *What are the Global Goals aiming to achieve? Why are they important? How many Goals are there?*

Step 2:

- Ask students: *Who is responsible for achieving the Global Goals? Do young people have a responsibility too? Watch [WLL Animation Part 2](#) independently. Explain that these individuals taking action for the Goals are called Goalkeepers. They are ordinary people that care about making the world a better place. Can students think of anyone who they think are Goalkeepers that weren't mentioned in the video?*

Step 3:

- Ask students to try and identify three of their own personal skills. *What are they good at? How might this be able to help them become a Goalkeeper? What kind of person do you want to be when your older? What is special about you?* As a prompt they can refer back to the words in Appendix 1.

Step 4:

- Ask students to draw a self-portrait with their three chosen skills around it. They need to leave the final space for the word Goalkeeper. Ask students to share this back with you and they can also write a short explanation about why these skills enable them to take action for the Goals.

Step 5:

- Ask students to think about an action they can take at home which uses these skills & personality traits. For example, if they chose creativity, can they decorate a poster for the Goals? If they chose helpful, is there a task they can help their parents with today?
